About Us

Chowk Company is about bringing life to your imagination. Giving wings to your ideas is our ultimate moto. Our USP is **customisation**; You desire we execute. We ensure that we live up to your expectations by creating every detail with love and precision. We are a Kolkata based company that was established in June 2020.

Chowk Company is a marketplace for unique and creative goods. Its home to a universe of unique, handcrafted items. We cater to people looking for something special with a human touch, for those moments in life that deserve imagination. We have a variety of products ranging from wall hangings to nursery decor to saree covers to felt toys. We can produce basically everything that one requires. We would like to welcome you to our family with a promise that we will work tirelessly to create products and send it to you on time.

Our Story

Traditionally women of the family would sit in their chowk (meaning aangan in hindi) and pursue their hobbies and creative interests.

The name Chowk Company draws its inspiration from those golden times. Our mother has a creative hinge and would always make customised products with her own magical hands and make people feel special. Our journey started in June 2020, when we sisters thought of converting her interests into a more lucrative form for her customers by taking it online.

We are a group of 4 women, working on different aspects of this business and wish to make it big by bringing smiles on our customer's face. We believe customisation has its own magic and uniqueness!
