

ABSORBIA

MOISTURE ABSORBER

PRODUCT INFORMATION

VARIANTS AND PRICES

WHAT IS **ABSORBIA**?

Absorbia is a range of moisture absorbers, designed to trap and lock in excess moisture from its surroundings preventing moisture damage in the form of mould, fungus and musty smells.

MOULD & FUNGUS

When temperatures and humidity levels rise, mould and fungus flourish causing harm not only to your food and belongings but also to you.

MUSTY SMELL

If a space smells musty, it indicates the presence of mould even if you can't see it. This is due to poor ventilation and excess moisture. Absorbia removes excess moisture and improves the quality of air.

ALLERGENS

Any substance that can cause an allergy is an allergen. Mould & fungus release allergens as mould spores, which trigger allergic reactions.

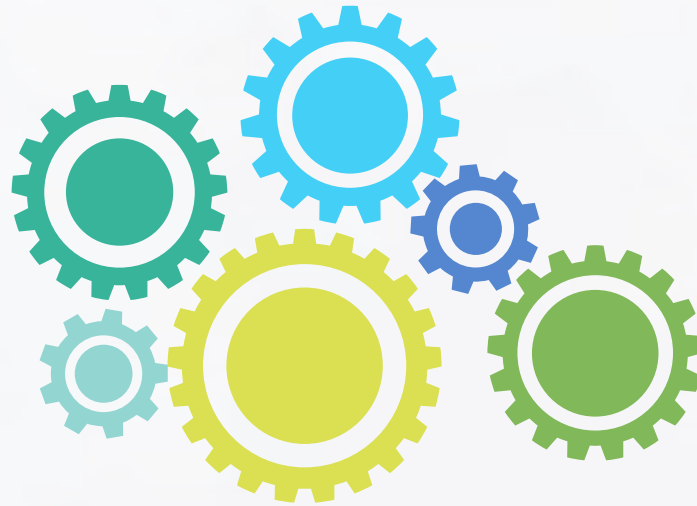

ABSORBIA
MOISTURE ABSORBER

ALL ABOUT **ABSORBIA**

MOST EFFECTIVE IN ENCLOSED SPACES

Absorbia is most effective in enclosed spaces such as closets, lofts, and rooms that not in regular use

WATCH AS IT WORKS!

You can see the moisture collecting in the lower compartment, allowing you to watch Absorbia as it works!

COMPLETELY SPILL-PROOF DESIGN

Most variants of Absorbia (except for the Re-usable Box) are completely spill proof. The white one-way filter below the aluminium foil prevents the crystals as well as the collected moisture from spilling even if its over turned!
